

Scope & Sequence

Introduction

This program consists of a core curriculum bookended by entry- and exit-level assessments: the “CHEC-In” and “CHEC-Out” activities. The core curriculum consists of three units covering unique topics and is supplemented by in-class activity ideas from this guide. The assessment activities consist of a content test given before and after the core curriculum. A service learning project, in which students complete a complex project based on what they’ve learned in the program, might be included as an additional “CHEC-Out” activity.

For your convenience, the items described above have been organized in outline form and included below. Please use this resource to plan your lessons and as a quick reference guide as you administer the program.

Drug Defense outline

CHEC-IN ACTIVITIES	CORE CURRICULUM	CHEC-OUT ACTIVITIES
<ol style="list-style-type: none"> 1. CHEC-In Pre-test 2. What is a Drug? 	<ol style="list-style-type: none"> 1.
